

Special Issue on
Enterprise Risk Management and Business Performance
Call for Papers

Enterprise Risk Management and Business Performances explores how organizations identify, assess, and manage uncertainties that may affect strategic objectives, operational efficiency, financial stability, and long-term competitiveness. It addresses corporate governance, risk assessment methodologies, internal control systems, financial risk management, strategic decision-making, crisis preparedness, and performance evaluation. Research in this area considers the relationship between risk management practices and organizational profitability, innovation capacity, resource allocation, and business resilience. It also addresses emerging challenges such as cybersecurity threats, regulatory changes, market volatility, supply chain disruptions, and reputational risks. Through integrated risk frameworks, data-driven analysis, and effective governance mechanisms, this area supports informed managerial decisions, improved organizational performance, and sustainable business growth.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Enterprise Risk Management and Business Performance**. Potential topics include, but are not limited to:
