

Table of Contents

Volume 5 Number 12

December 2017

Assessment of Vertical Magnetic Gradient Data of Tuzla Fault Using Boundary Analysis and 3-D Inversion Techniques

E. Timur.....33

Demonstration of a Dynamic Braking System for Reduced Runaway Speed of Hydraulic Turbines

U. Lundin, J. Bladh.....46

Vortex Method of Localization of Thermonuclear Plasma

E. P. Smirnov.....58

A Numerical Prediction of Tip Vortices from Tandem Propellers in the Counter-Rotating Type Tidal Stream Power Unit

H. Jung, T. Kanemoto, P. Liu.....66

Impacts of Water-Tree Fault on Ferroresonance in Underground Cables

B. Sun, E. Makram, X. F. Xu.....75

Desulphurization of Transportation Fuels by Per-Formic Acid Oxidant Using MoO₃ Loaded on ZSM-5 Catalyst

W. Ahmad, I. Ahmad.....87

Efficiency of Energy Utilisation in a Nigeria Sausage Producing Factory

M. A. Waheed, P. O. Aiyedun, W. O. Adediji, A. A. Obisanya, S. T. Amosun, A. O. Adesina.....100

Choice of Site for the Installation of Photovoltaic Solar Power Plants in Senegal: Consequences on Electricity Production

M. Faye, A. Thiam.....109

PV Characterization System Outdoors—Case Study in Brazil

P. R. Silva, P. R. da Silva Jota, A. P. Batista.....119

On the Mathematical Modelling of Adaptive Darrieus Wind Turbine

P. M. Kumar, K. R. Ajit, N. Srikanth, T.-C. Lim.....133
