

Special Issue on Heat Energy

Call for Papers

Heat energy is the manifestation of the energy in the form of heat. This is an important form of energy as it is essential for everyday activities. There are many sources of heat energy, such as the sun, the earth, the air, burning fuels and electricity. The goal of this Special Issue is to provide a platform for scientists worldwide to promote, share, and discuss various new issues and developments in the area of heat energy.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **heat energy**. Potential topics include, but are not limited to:

- Solar energy
- Geothermal energy
- Heat pumps
- Burning fuels
- Electrical energy
- Heat energy conversion
- Heat energy storage
- Waste heat recovery

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Heat Energy**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	June 9th, 2016
Publication Date	August 2016
