

Special Issue on Security Management and Risk Control

Call for Papers

Security Management and Risk Control focuses on the identification, assessment, and mitigation of threats that may affect the safety, stability, and resilience of organizations, systems, and critical infrastructures. It encompasses security governance, risk analysis, crisis management, cybersecurity, compliance, business continuity planning, and emergency response strategies. The field integrates principles from management, information technology, engineering, and public safety to address evolving risks in physical, digital, and operational environments. Through proactive planning, monitoring, and control measures, Security Management and Risk Control aims to enhance organizational resilience, protect assets and information, and ensure sustainable and secure operations in an increasingly complex world.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Security Management and Risk Control**. Potential topics include, but are not limited to:

- Security governance
- Risk assessment
- Risk mitigation
- Cybersecurity management
- Information security
- Crisis management
- Business continuity planning
- Disaster recovery
- Security compliance
- Security auditing
- Threat intelligence
- Incident response
- Critical infrastructure protection
- Supply chain security
- Emergency management
- Organizational resilience

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Security Management and Risk Control**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	October 12th, 2026
Publication Date	November 2026
