## Special Issue on Financial Management and Quality

### Call for Papers

“Financial Management and Quality” is an academic field that explores how financial planning, budgeting, investment decisions and resource allocation influence the quality of organizational performance and outcomes. It examines the relationship between financial efficiency, cost control, risk management and the delivery of high-quality products, services or healthcare. The field integrates principles of accounting, finance and quality management to improve organizational effectiveness, sustainability and value creation.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Financial Management and Quality**. Potential topics include, but are not limited to:
