**Special Issue on**  
**Transportation Infrastructure and Management**  
**Call for Papers**

Transportation Infrastructure and Management addresses the planning, design, operation, and maintenance of transportation systems that support efficient, safe, and sustainable mobility. This special issue focuses on the management of roadways, railways, ports, airports, and multimodal networks, emphasizing infrastructure performance, asset management, and resilience under growing demand and environmental constraints. Contributions integrating engineering, data analytics, policy, and intelligent transportation technologies are particularly encouraged to advance decision-making, optimize system operations, and enhance the long-term sustainability of transportation infrastructure.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Transportation Infrastructure and Management**. Potential topics include, but are not limited to:

- Airport infrastructure and aviation management
- Bridge engineering and asset management
- Highway and roadway engineering
- Intelligent transportation systems (ITS) and smart mobility
- Multimodal transportation planning and integration
- Pavement engineering and performance evaluation
- Port and maritime transportation infrastructure
- Public transit systems and operations
- Railway infrastructure systems and management
- Resilient infrastructure and disaster management
- Sustainable and green transportation infrastructure
- Traffic operations and congestion management
- Transportation asset management and maintenance strategies
- Transportation infrastructure planning and development
- Transportation policy, economics, and governance
- Transportation safety and risk management

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - *Transportation Infrastructure and Management***” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	April 28th, 2026
Publication Date	June 2026

**Guest Editor:**

Dr. Kaveh Ostad-Ali-Askari

Department of Civil Engineering, Stanford University, USA
