

Special Issue on Transportation Science and Technology

Call for Papers

Transportation Science and Technology is an interdisciplinary field that focuses on the planning, design, operation, and optimization of transportation systems through advanced scientific methods and technological innovations. It integrates knowledge from engineering, data science, logistics, and urban planning to improve the efficiency, safety, sustainability, and intelligence of mobility networks. Key areas include intelligent transportation systems, traffic flow theory, transportation infrastructure, autonomous and connected vehicles, public transit systems, and sustainable mobility solutions. With the rapid advancement of digital technologies such as artificial intelligence, big data analytics, and the Internet of Things, this field plays a critical role in shaping modern smart cities and addressing global challenges related to congestion, energy consumption, and environmental impact.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Transportation Science and Technology**. Potential topics include, but are not limited to:

- Air transportation management
- Autonomous vehicles
- Connected vehicle technologies
- Freight and logistics management
- Highway engineering
- Intelligent transportation systems
- Maritime transportation systems
- Public transportation systems
- Railway transportation systems
- Sustainable transportation
- Traffic flow theory
- Traffic safety analysis
- Transportation data analytics
- Transportation infrastructure
- Transportation planning
- Urban mobility systems

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - *Transportation Science and Technology***” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	July 10th, 2026
Publication Date	September 2026

Guest Editor:

Dr. Qinwen Du

School of Highway, Chang'an University, China
