

Special Issue on Transportation Science and Technology

Call for Papers

Transportation Science and Technology is a field dedicated to advancing transportation systems through scientific research, engineering innovation, and the application of modern technologies. It covers the planning, design, operation, and management of road, rail, air, and maritime transportation, as well as intelligent transportation systems, traffic flow optimization, vehicle engineering, and transport infrastructure development. Research in this area addresses mobility efficiency, transportation safety, logistics optimization, sustainable mobility, and the integration of emerging technologies such as autonomous vehicles, electric transportation, and connected transport networks. By combining engineering principles, data analytics, and technological innovation, this field supports the development of safer, more efficient, accessible, and environmentally sustainable transportation systems.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Transportation Science and Technology**. Potential topics include, but are not limited to:

- Transportation planning
- Traffic engineering
- Intelligent transportation systems
- Transportation safety
- Vehicle engineering
- Autonomous transportation
- Electric vehicle technology
- Public transportation systems
- Railway transportation
- Air transportation
- Maritime transportation
- Freight and logistics management
- Sustainable transportation
- Transportation infrastructure
- Traffic flow optimization
- Transportation data analytics

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Transportation Science and Technology**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	February 26th, 2027
Publication Date	April 2027
