
Special Issue on

Water Resources and Environmental Dynamics

Call for Papers

Water Resources and Environmental Dynamics explores the interactions between water systems and environmental processes across natural and human-influenced landscapes. It focuses on the assessment, management, and sustainability of surface water, groundwater, and aquatic ecosystems while examining the impacts of climate change, land-use transformation, pollution, and resource exploitation on hydrological and environmental dynamics. The field integrates hydrology, environmental science, ecology, geoscience, and water resource engineering to understand water availability, quality, distribution, and ecosystem responses. Research in this area supports the development of sustainable water management strategies, environmental conservation practices, and resilience measures to address growing challenges related to water security, environmental degradation, and global change.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Water Resources and Environmental Dynamics**. Potential topics include, but are not limited to:

- Hydrology and water cycles
- Surface water management
- Groundwater studies
- Watershed management
- Water quality assessment
- Aquatic ecosystem dynamics
- Environmental hydrology
- Climate change and water resources
- Flood risk management
- Drought monitoring and mitigation
- River basin management
- Wetland ecology and conservation
- Water pollution control
- Integrated water resources management
- Environmental impact assessment
- Sustainable water resource planning

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Water Resources and Environmental Dynamics**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	September 16th, 2026
Publication Date	November 2026

Guest Editor:

Dr. Pouria Kharazi
Southern Illinois University, Iran
