

Special Issue on Monopoly and Anti-Monopoly

Call for Papers

The monopoly is a market structure characterized by a single seller, selling a unique product in the market. In a monopoly market, the seller faces no competition, which makes the single seller the market controller as well as the price maker. Anti-monopoly is a response to monopoly, which is to demonstrate how harmful monopolies could be to a free-enterprise system, and how antitrust laws work to curtail them in the real world.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Monopoly and Anti-Monopoly**. Potential topics include, but are not limited to:

- Perfect competition
- Unfair competition
- Monopoly market
- Monopoly power and economic efficiency
- Price discrimination
- Antitrust law

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Monopoly and Anti-Monopoly**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	February 15th, 2017
Publication Date	April 2017
