## Special Issue on Energy Economics

### Call for Papers

**Energy economics** is the application of economics to energy issues. Central concerns in energy economics include the supply and demand for each of the main fuels in widespread use, competition among those fuels, the role of public policy, and environmental impacts.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Energy Economics**. Potential topics include, but are not limited to:

- Demand and supply
- Energy management
- Energy forecasting
- Price strategy and analysis
- Oil economics
- Energy markets
- Investment and competition
- Environmental policy
- Sustainable development
- Energy policy and finance
- Risk analysis

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Energy Economics**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	April 25th, 2019
Publication Date	June 2019

For publishing inquiries, please feel free to contact the Editorial Assistant at [submission.entrance1@scirp.org](mailto:submission.entrance1@scirp.org)
