September 2015

|                                                                                                                                      |    |
|--------------------------------------------------------------------------------------------------------------------------------------|----|
| <b>First-Principles Calculations on the Half-Metallicity of Rock-Salt Ferromagnetic FeO</b>                                          |    |
| J. Liu, X. L. Yang, W. Kang.....                                                                                                     | 1  |
| <b>Resin Characterization and Tubular Membrane Transport with Single Gases for Ethyl Lactate Separations for Industrial Purposes</b> |    |
| E. Okon, H. Shehu, N. Nwogu, M. Kajama, I. Orakwe, E. Gobina.....                                                                    | 8  |
| <b>Modeling and Optimizations of Phosphate Removal from Aqueous Solutions Using Synthetic Zeolite Na-A</b>                           |    |
| E. A. Mohamed, A. Q. Selim, M. K. Seliem, M. R. Abukhadra.....                                                                       | 15 |
| <b>Frequency Dependence of Atomic Diffusivity and Electrical Properties of Gum Arabic/Graphite Composite</b>                         |    |
| B. I. Adham, H. M. El-Khair, M. A. Siddig.....                                                                                       | 30 |
| <b>Influence of Cryogenic Treatment on Microstructure and Properties Improvement of Die Steel</b>                                    |    |
| S. T. Liu, X. C. Wu, L. Shi, Y. W. Wu, W. Qu.....                                                                                    | 37 |
| <b>Preparation of CuO-Ta<sub>2</sub>O<sub>5</sub> Composites Using a Simple Co-Sputtering Method</b>                                 |    |
| K. Miura, T. Osawa, Y. Yokota, Z. Hossain, O. Hanaizumi.....                                                                         | 47 |
| <b>Investigation of a Modified Cobalt-Free Alloy for Nuclear Application</b>                                                         |    |
| M. M. Eissa, M. M. Kassab, S. U. El-Kameesy, A. A.-L. Mohamed.....                                                                   | 52 |
| <b>The Newest Getter Technologies: Materials, Processes, Equipment</b>                                                               |    |
| K. Chuntanov, J. Setina, G. Douglass.....                                                                                            | 57 |
| <b>Li<sub>4</sub>Ti<sub>5</sub>O<sub>12</sub> Synthesis with High Specific Surface Area and Single Phase</b>                         |    |
| T. Ohtake, K. Iijima.....                                                                                                            | 68 |
