

TABLE OF CONTENTS

Volume 3 Number 3

September 2012

Initiation and Regulation of CNS Autoimmunity: Balancing Immune Surveillance and Inflammation in the CNS	
M. G. Harris, Z. Fabry.....	203
Systemic Complications of Complex Regional Pain Syndrome	
R. J. Schwartzman.....	225
Gum Chewing and Cognition: An Overview	
L. Tucha, J. Koerts.....	243
Cellular Psychology Assumption: Based upon Exterior Algebra, It Contributes to Explaining the Variability of the Bioeffects of Magnetic and Electromagnetic Fields	
P. Le Chapellier, B. Matta.....	251
Otoacoustic Emissions and Evoked Potentials in Infants after Breast-Feeding Jaundice	
A. Poblano, N. Ballesteros, C. Arteaga, B. Flores, T. Flores.....	270
Evaluation of the 5-HTTLPR and 5-HTTVNTR Polymorphisms in the Serotonin Transporter Gene in Women with Postpartum Depression	
J. M. Zimmermann-Peruzatto, S. Almeida, A. B. Lucion, J. P. Oses, L. Á. Quevedo, K. A. T. Pinheiro, R. A. da Silva, R. T. Pinheiro, M. Giovenardi.....	275
Effect of Nicotine on Dopamine and Glutathione Levels in Presence of Oligoelements in Brain Regions of Young Rats	
D. C. Guzmán, E. H. García, F. T. Jiménez, G. B. Mejía, H. J. Olguín, J. A. S. González, D. S. del Angel, N. O. Brizuela.....	281
Growth Hormone Prevents the Memory Deficit Caused by Oxidative Stress in Early Neurodegenerative Stage in Rats	
D. V. Castillo-Padilla, G. Borgonio-Pérez, A. Zentella-Dehesa, A. Sandoval-Montiel, J. L. V. Gallegos, S. Rivas-Arancibia.....	287
S-Nitrosoglutathione Administration Ameliorates Cauda Equina Compression Injury in Rats	
A. Shunmugavel, M. Khan, M. M. Martin, A. G. Copay, B. R. Subach, T. C. Schuler, I. Singh.....	294
Experimental Hyperthermia during Cardiac Arrest and CPR Is Associated with Severe Spontaneous Hypothermia in Mice	
R. R. Noppens, J. Kofler, R. Traystman.....	306
Sex Differences in Scratching Behaviors Induced by Intradermal Injections of Pruritogenic Chemicals in C57BL/6 Mice	
L. Liang, Y. Han, M. Zhang, C. W. Liu, Y. B. Xie, W. J. Han, S. J. Hu, H. Zhang, H. Xu.....	314
Human Embryo Neuronal Culture <i>in Vitro</i>: A Model to Study Cellular Physiology, Receptors, Power and Toxicity of Cytostatic Drugs for Human Use	
S. Mariano, M. Roberto, I. Tina, B. Luca, M. Lucia, A. Vincenzo, D. R. Carlo, M. Francesco.....	321

The figure on the front cover is from the article published in Neuroscience and Medicine, 2012, Vol. 3, No. 3, pp. 294-305 by Anandakumar Shunmugavel, *et al.*
