Subject Coverage

All manuscripts must be prepared in English and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers including but not limited to the following fields:

- Air and water pollution on the health of individuals
- Air pollution epidemiology
- Carpal tunnel syndrome
- Computer vision syndrome
- Food poisoning
- Hazardous materials
- Indoor air quality
- Ionizing radiation from X-rays
- Lead poisoning from leaded gasoline, paint, and plumbing
- Medical waste
- Mercury poisoning
- Occupational health and industrial hygiene
- Occupational lung disease
- Occupational skin diseases
- Phossy jaw
- Radiation sickness
- Radioactive isotopes
- Radiological health
- Radium jaw
- Radon gas exposure
- Squamous cell carcinoma
- Toxic chemical exposure
- Vector control
- Water-borne diseases

We are also interested in:

- 1) Short reports—2-5 page papers where an author can present an idea with theoretical background, but has not yet completed the research needed for a complete paper or an author presents preliminary data;
- 2) Short communications—2-5 page papers;
- 3) Technical notes—2-5 page papers;
- 4) Letters to the Editor;
- 5) Reviews (the number of pages is not restricted), Book reviews—Comments and critiques;
- 6) Advertisement.

What is SCIRP?

Scientific Research Publishing (SCIRP) is an open access academic publisher. It currently publishes more than 200 peer-reviewed open access journals covering a broad spectrum of academic disciplines. Through its open access publishing model, SCIRP is committed to supporting the global research community and promoting the dissemination, exchange, and application of scholarly knowledge.

What is Open Access?

SCIRP ensures that all original research papers it publishes are offered free and continuing online accessibility as soon as they are published. In order to deliver open access journals, SCIRP charges authors to cover operational expenses and subscription fees only for the printed version. Open access publishing allows for unrestricted and worldwide access to the complete text of research papers, and is thus most advantageous to the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
