

Special Issue on
Animal Physiology, Nutrition and Feed Science
Call for Papers

Animal Physiology, Nutrition and Feed Science explores the physiological processes, nutritional requirements, and feeding practices that influence animal health, growth, reproduction and productivity. It covers digestion, metabolism, nutrient utilization, feed ingredients, feed formulation, dietary management and animal responses to nutrition. The topic also examines innovative feed technologies and sustainable feeding strategies to improve animal performance, health and production efficiency.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Animal Physiology, Nutrition and Feed Science**. Potential topics include, but are not limited to:

- Animal Physiology and Metabolism
- Animal Nutrition and Nutrient Requirements
- Nutritional Immunology
- Nutrigenomics & Nutritional Endocrinology
- Feed Science and Feed Formulation
- Digestive Physiology and Nutrient Utilization
- Animal Growth and Development
- Ruminant Nutrition and Feeding
- Poultry and Swine Nutrition
- Aquaculture Nutrition and Feed Science
- Animal Welfare and Behavioral Nutrition
- Environmental Nutrition & Physiology
- Sustainable Animal Feeding and Production

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Animal Physiology, Nutrition and Feed Science**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	December 18th, 2026
---------------------	---------------------

Scientific Research
Open Access

Open Journal of Animal Sciences

ISSN Online: 2161-7627

Publication Date	February 2027
