

Special Issue on Construction Management and Sustainable Built Environments

Call for Papers

Construction Management and Sustainable Built Environments involves the coordination, planning, and execution of construction projects with a strong emphasis on environmental responsibility, resource efficiency, and long-term sustainability. It integrates project management principles with green building practices, focusing on reducing carbon emissions, optimizing material and energy use, and enhancing the environmental performance of buildings and infrastructure. The field addresses the full life cycle of the built environment—from design and construction to operation and deconstruction—while incorporating innovative technologies, regulatory frameworks, and stakeholder collaboration to achieve resilient, cost-effective, and socially responsible development.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Construction Management and Sustainable Built Environments**. Potential topics include, but are not limited to:

- Construction project management
- Sustainable building design
- Green construction technologies
- Building information modeling
- Construction economics
- Life cycle assessment
- Sustainable materials engineering
- Lean construction
- Construction safety management
- Infrastructure sustainability
- Facility management
- Urban sustainability planning
- Environmental impact assessment
- Renewable energy integration
- Waste management in construction
- Smart construction systems

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Construction Management and Sustainable Built Environments**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	July 22nd, 2026
Publication Date	September 2026

Guest Editor:

Dr. Vasanthi Padmanabhan

Civil Engineering, Abdur Rahman University, India
