March 2016

|                                                                                                                                                                                                    |     |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>Does <i>Typha</i> spp. Contribute to Wetland Waterloss and Health Risk: A Case Study of Hadejia Nguru Wetlands (HNW) System NE Nigeria</b>                                                      |     |
| G. Salako, H. Sawyerr, O. Olalubi.....                                                                                                                                                             | 151 |
| <b>Use of Sediment and Algae for Biomonitoring the Coast of Honaïne (Far West Algerian)</b>                                                                                                        |     |
| H. Allam, A. Aouar, W. Benguedda, R. Bettoui.....                                                                                                                                                  | 159 |
| <b>Study on the Biology of <i>Tilapia zillii</i> (Gervais, 1848) in Lake Kinneret (Israel)</b>                                                                                                     |     |
| M. Gophen.....                                                                                                                                                                                     | 167 |
| <b>The Effect of Polyvinyl Acetate Polymer on Reducing Dust in Arid and Semiarid Areas</b>                                                                                                         |     |
| G. Tadayonfar, N. Shahmiri, M. H. Bazoobandi.....                                                                                                                                                  | 176 |
| <b>Yield Compounds and Nutrient Elements of Carnation (<i>Dianthus caryophyllus</i> L.) under Different Growing Media</b>                                                                          |     |
| M. Soltani, D. Naderi.....                                                                                                                                                                         | 184 |
| <b>Spatial Variations of Soil Respiration in Arid Ecosystems</b>                                                                                                                                   |     |
| G. Liu, R. Sonobe, Q. Wang.....                                                                                                                                                                    | 192 |
| <b>The Influence of Environmental Factors on the Population Structure and Reproductive Biology of <i>Idotea balthica basteri</i> (Isopoda, Valvifera) of the Bizerte Lagoon (Northern Tunisia)</b> |     |
| W. Zaabar, F. Charfi-Cheikhrouha, M. S. Achouri.....                                                                                                                                               | 206 |
