

Special Issue on Competition and Commensalism

Call for Papers

This special issue on “**Competition and Commensalism**” will be focusing on the latest development in biological evolution process in nature. Competition refers to the interaction of organism, which have the common needs for food and life space. Commensalism refers to the mutually beneficial relationship between the close contacts of two kinds of different organism. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in this area of **competition and commensalism**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **competition and commensalism**. In this special issue, potential topics include, but are not limited to:

- Interspecific competition and intraspecific competition
- Competitive coexistence
- Mutualism and amensalism
- Parasitic species
- Community ecology
- Evolutionary theory

Authors should read over the journal’s [Authors’ Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s [Paper Submission System](#).

Please kindly note that the “**Special Issue**” under your manuscript title should be specified and the research field “**Special Issue – Competition and Commensalism**” should be selected during your submission.

Also please note the following timetable:

Submission Deadline	June 12th, 2014
Publication Date	August 2014
