

Special Issue on Ecosystem Management and Sustainability

Call for Papers

Ecosystem management is an integrated approach to protect the entire ecosystems. It ensures the long-term sustainability and persistence of an ecosystems function and services while meeting socioeconomic, political, and cultural needs. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of Ecosystem Management and Sustainability.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Ecosystem Management and Sustainability**. Potential topics include, but are not limited to:

- Biosphere reserves
- Climate change adaptation
- Disaster risk reduction
- Diverse and healthy ecosystems
- Ecological management
- Ecosystem monitoring and assessment
- Ecosystem services
- Ecosystem and biodiversity
- Ecosystem conservation and restoration
- Human health and ecosystem management
- Impact mitigation and ecological compensation
- Natural resource management

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Ecosystem Management and Sustainability**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	January 12th, 2022
Publication Date	March 2022
