

Special Issue on
Ecosystem Management and Sustainable Development
Call for Papers

Ecosystem Management and Sustainable Development emphasizes the maintenance of ecological integrity while promoting the responsible use of natural resources to meet present and future societal needs. It addresses ecosystem restoration, landscape planning, natural resource governance, biodiversity conservation strategies, sustainable land use, and the interactions between human activities and ecological processes. Research in this area contributes to understanding ecosystem resilience, managing competing demands for environmental resources, and developing policies that balance economic progress with long-term ecological stability. Key considerations include habitat fragmentation, resource depletion, ecosystem service valuation, community participation, and the effects of human development on natural systems. Through adaptive management, evidence-based decision-making, and collaborative approaches, this area supports the preservation of ecological functions and the advancement of sustainable livelihoods and long-term environmental well-being.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Ecosystem Management and Sustainable Development**. Potential topics include, but are not limited to:

- Ecosystem restoration
- Biodiversity conservation
- Natural resource management
- Sustainable land use
- Habitat management
- Landscape ecology
- Ecosystem services assessment
- Environmental governance
- Climate change adaptation
- Sustainable agriculture
- Forest management
- Wetland management
- Ecological risk assessment
- Community-based conservation
- Sustainable development policy
- Ecosystem resilience planning

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Ecosystem Management and Sustainable Development**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	February 25th, 2027
Publication Date	April 2027
