Prof. Jintun Zhang

Beijing Normal University, China

Table of Contents

Volume 5 Number 7

October 2015

Stimulation of Multiple Leader Formation in Some Genotypes of <i>Acacia mangium</i> and <i>Acacia auriculiformis</i> with 6-Benzylaminopurine (BAP)	
A. M. A. Eldoma, S. K. Muniandi, N. A. A. Shukor.....	637
Estimation of Tree Crop Size across Multiple Taxa: Generalization of a Visual Survey Method	
A. Nakajima, T. Masaki, S. Koike, K. Yamazaki, K. Kaji.....	651
Population Structure and Regeneration Status of <i>Trichilia dregeana</i> Sond. in Heavily and Less Disturbed Areas of Kalinzu Forest Reserve, South Western Uganda	
A. Aine-Omucunguzi, D. Byarugaba, G. K. Rugunda.....	662
Short Term Leguminous Trees-Tillage Interactions and Their Effect on Soil-Water Content in a Semi-Arid Agroforestry Parkland	
C. Kalinda, D. Mburu, K. Ngamau, L. A. Chisala, D. Zulu, J. Kihoro.....	668
Domestication and Sustainable Use of Genetic Resources of a Native Tree with High Economic Potential in Ghana	
T. Peprah, K. A. Oduro, D. E. K. A. Siaw, J. R. Cobbinah, Z. Tchoundjeu, A. J. Simons, R. Jamnadass, D. A. Ofori.....	678
Distribution of Myxomycetes on Varied Leaf Litter Types in a Mixed Forest in Warm-Temperate Western Japan	
K. Takahashi.....	686
Trends in Markets for Forest-Based Products and Consequences for Selected Countries	
O. Maksymets, L. Lönnstedt.....	697
Responses of Native Tree Species to Soil Water Stress in a Tropical Forest on Limestone, Vietnam	
L. V. Binh, N. V. Thinh, R. Köpp, V. D. Hai, R. Mitlöhner.....	711
Landscape Patterns of Vegetation Canopy Regrowth Following Wildfires in the Sierra Nevada Mountains of California	
C. Potter.....	723
Studies on Refinement of Container Size and Potting Mixture for Production of Quality Seedlings in Spruce (<i>Picea Smithiana</i> Wall. Boiss)	
J. A. Mugloo, P. A. Khan, A. H. Mughal, K. N. Qasir, S. N. Zaffar, G. Parrey.....	733

Present Situation and Prospective of Camellia Nut Shells Utilization

J. P. Zhang, L. S. Hu, Z. L. Wang, M. H. Du, X. H. Yao.....740

Toxicological Test of Saponins from *Sapindus mukorossi* Gaerth

M. H. Du, S. M. Huang, J. P. Zhang, J. W. Wang, L. S. Hu, J. M. Jiang.....749

Open Journal of Forestry

ISSN 2163-0429 (Print) ISSN 2163-0437 (Online)

<http://www.scirp.org/journal/ojf>

Open Journal of Forestry (OJF) is an international journal dedicated to the latest advancement of forestry. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of forestry.

Subject Coverage

All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers including but not limited to the following fields:

- Carbon and Biomass Assessment
- Cultivation of Economic Plants
- Economic Management of Forest Resources
- Forest Botany
- Forest Ecology
- Forest Entomology
- Forest Environmentology
- Forest Fire/Wildfire
- Forest Genetics and Plant Breeding
- Forest Management Science
- Forest Operation
- Forest Pathology
- Forest Pest Control
- Forest Policy Analysis
- Forest Protection
- Forest Resource Statistics
- Forestry Economics and Management
- Forestry Projects
- Gardening
- Human Dimensions of Forestry
- Land Resource Science
- Plant Nutrition
- Plant Physiology
- Silviculture
- Soil Fertilizer Science
- Urban Forestry
- Wildlife Conservation and Management

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

Website and E-Mail

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
