Table of Contents

Volume 16 Number 1

January 2026

Modelling the Ecological Niche of the Five Predominant Mega-Trees Species and Their Implications for the Management of the Azagny National Park in the Southern Côte d'Ivoire

B. Hillihase, N. E.-J. Abrou, V.-P. G. Kouadio, A. E. G. Adiko, C. Y. Adou Yao 1

Causes and Relationships between Pine Delivered and Stumpage Prices in the Southern U.S.

M. D. Misztal, J. P. Siry, B. Mei, T. G. Harris Jr., J. M. Bowker 20

A Chronological Analysis of Lao Forest Policy: State Control, Economic Drivers, and Environmental Outcomes

K. Phengsopha, O. Alounsavath, P. Latthachack, K. Grace 34

Determinants of the Non-Timber Forest Products (NTFPs) Availability and Degradation in the South-Central Sahelian Area of Niger

D. Garba Oumarou, O. Laminou Manzo, I. Oumarou Haladou 49

Baulu Conservation Concession as an Other Effective Area-Based Conservation Measure (OECM): Loma Group, DRC

L. Nanfack, N. Bayol, F. Palla, M. Olivier, S. A. Kamgang, L. D. Mabicka, J.-H. Nankia Tatang 64

High-Resolution Study of the Late Holocene from Pollen of a Marine Core in the Gulf of Guinea (Cameroon): Paleoenvironmental and Ecological Dynamics in Central Africa during the Last 2,500 Years

M. D. Bengo, H.-Y. Gomat, A. M. Bitá, S. A. Ifo, J. Maley, P. Giresse 83

Effect of Local Site Quality Variation on Height-Diameter Allometry of *Pinus patula* at Sao Hill Plantation, Tanzania

W. A. Mugasha 106

Contribution of Forest Resources to Household Socio-Economic Resilience in the Sudano-Sahelian Zone of Burkina Faso: Evidence from the Razoutenga Community Forest

F. Sanogo, Y. Ouédraogo, D. Traoré, S. Ilboudo 122

Open Journal of Forestry

ISSN 2163-0429 (Print) ISSN 2163-0437 (Online)

<https://www.scirp.org/journal/ojf>

Open Journal of Forestry (OJF) is an international journal dedicated to the latest advancements of forestry. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of forestry.

Subject Coverage

All manuscripts must be prepared in English and are subject to a rigorous and fair peer-review process. Generally, accepted papers will appear online within 3 weeks followed by printed hard copy. The journal publishes original papers including but not limited to the following fields:

- Carbon and Biomass Assessment
- Cultivation of Economic Plants
- Economic Management of Forest Resources
- Forest Botany
- Forest Ecology
- Forest Entomology
- Forest Environmentology
- Forest Fire/Wildfire
- Forest Genetics and Plant Breeding
- Forest Management Science
- Forest Operation
- Forest Pathology
- Forest Pest Control
- Forest Policy Analysis
- Forest Protection
- Forest Resource Statistics
- Forestry Economics and Management
- Forestry Projects
- Gardening
- Human Dimensions of Forestry
- Land Resource Science
- Plant Nutrition
- Plant Physiology
- Silviculture
- Soil Fertilizer Science
- Urban Forestry
- Wildlife Conservation and Management

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
