

Special Issue on Clinical Nephrology

Call for Papers

Clinical Nephrology is a specialized branch of medicine focused on the diagnosis, treatment, and management of kidney-related diseases and disorders. It encompasses a wide range of conditions including chronic kidney disease, acute kidney injury, glomerulonephritis, electrolyte imbalances, and hypertension related to kidney dysfunction. Clinical nephrologists are also involved in overseeing dialysis treatments and evaluating patients for kidney transplantation. The field integrates laboratory diagnostics, imaging, and therapeutic interventions to improve renal function and patient outcomes, playing a vital role in both acute care and long-term management of kidney health.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Clinical Nephrology**. Potential topics include, but are not limited to:

- Acid-base imbalances
- Acute kidney injury
- Autoimmune kidney diseases
- Chronic kidney disease
- Diabetic nephropathy
- Electrolyte disorders
- Genetic kidney disorders
- Glomerular diseases
- Hemodialysis management
- Hypertensive nephropathy
- Kidney transplantation
- Nephrolithiasis management
- Onconeurology
- Pediatric nephrology
- Peritoneal dialysis
- Renal replacement therapy

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Clinical Nephrology**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	September 25th, 2025
Publication Date	November 2025

Guest Editor:

Dr. Mohamed Ahmed Nasreldin

King Fahd Hospital of the University (KFHU), Saudi Arabia
