

Special Issue on Clinical Nephrology and Kidney Health

Call for Papers

Clinical Nephrology and Kidney Health encompasses the prevention, diagnosis, treatment, and long-term management of kidney diseases and disorders affecting renal function across the lifespan. It includes the study of chronic kidney disease, acute kidney injury, glomerular diseases, hypertension, electrolyte and acid–base disorders, dialysis, kidney transplantation, and emerging therapeutic approaches. Integrating advances in clinical medicine, pathology, physiology, pharmacology, and precision healthcare, this field aims to improve kidney health, optimize patient outcomes, reduce disease burden, and promote effective strategies for the prevention and management of renal disorders.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Clinical Nephrology and Kidney Health**. Potential topics include, but are not limited to:

- Chronic kidney disease
- Acute kidney injury
- Glomerular diseases
- Tubular disorders
- Hypertensive nephrology
- Diabetic nephropathy
- Electrolyte disorders
- Acid-base disorders
- Hemodialysis
- Peritoneal dialysis
- Kidney transplantation
- Renal pathology
- Pediatric nephrology
- Critical care nephrology
- Nephrolithiasis
- Renal nutrition

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Clinical Nephrology and Kidney Health**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	October 16th, 2026
Publication Date	December 2026

Guest Editor:

Dr. Mohamed Ahmed Nasreldin

King Fahd Hospital of the University (KFHU), Saudi Arabia
