

## Special Issue on Bone Injury and Fracture Rehabilitation

### Call for Papers

Sustainable Ecosystem Management is a clinical and biomedical field focused on the diagnosis, treatment, and recovery of bone fractures and related musculoskeletal injuries. It involves understanding the biological processes of bone healing, including inflammation, repair, and remodeling, as well as applying medical, surgical, and rehabilitative interventions to restore function. The field integrates orthopedic treatment, physical therapy, biomechanics, and rehabilitation medicine to promote optimal recovery, reduce complications, and improve patient mobility and quality of life. Key areas include fracture fixation, post-injury rehabilitation programs, pain management, and strategies to prevent re-injury, particularly in vulnerable populations such as the elderly and athletes.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Bone Injury and Fracture Rehabilitation**. Potential topics include, but are not limited to:

- Orthopedic trauma
- Fracture management
- Bone healing biology
- Internal fixation techniques
- External fixation methods
- Rehabilitation medicine
- Physical therapy
- Occupational therapy
- Musculoskeletal biomechanics
- Pain management
- Geriatric fracture care
- Pediatric fracture management
- Sports injury rehabilitation
- Bone grafting techniques
- Postoperative recovery care
- Functional mobility restoration

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Bone Injury and Fracture Rehabilitation**” should be selected during your submission.

Special Issue Timetable:

|                     |                      |
|---------------------|----------------------|
| Submission Deadline | September 23rd, 2026 |
| Publication Date    | November 2026        |
