Publication Date: October 2018

Call for Papers

Special Issue on Women's Endocrine and Health

In Open Journal of Obstetrics and Gynecology (OJOG, ISSN Online:
2160-8806)

Detailed information about this journal: [Indexing](#), [Editorial Board](#), [Author's](#)

[Guidelines](#)

Endocrinology is the study of the endocrine system in the human body. This is a system of glands which secrete hormones. Hormones are chemicals which affect the actions of different organ systems in the body. Women's endocrine system greatly effects women's health and reproductive system.

We sincerely welcome scholar and expert with relative academic backgrounds to submit original research paper or review paper to this special issue on **Women's Endocrine and Health**. Potential topics or areas include, but are not limited to:

- Endometriosis
- Polycystic ovary syndrome
- Gestational diabetes
- Reproductive endocrinology and hormones
- Postmenopausal hormone therapy
- Hormone and ovarian diseases
- Insulin therapy in pregnancy
- Progesterone and estradiol in pregnancy
- Testosterone-related disorders
- Hormone therapy and breast cancer
- Menstrual dysfunction
- Hormone replacement therapy

Submission Methods: Submit a paper to this special issue or regular issue of our any journal via [Paper Submission System](#) or attach paper in an email sent to submission.entrance1@scirp.org (please indicate the name of our journal or special issue; any inquiry is also welcome).
