

Special Issue on Infertility & Reproductive Medicine

Call for Papers

Infertility is diminished or absent ability to conceive and bear offspring. Infertility can have many causes and may be related to factors in the male, female, or both. Treatments can include medications and assisted reproductive technologies.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Infertility & Reproductive Medicine**. Potential topics include, but are not limited to:

- IVF and ART
- Reproductive endocrinology & fertility
- ICSI treatment
- Reproductive disorders and treatment
- Recurrent miscarriage
- Management of polycystic ovary syndrome
- Endometriosis
- Reproductive hormone
- Embryo transfer
- Male-factor related infertility and sperm study
- Nutrition associated factors
- Impacts of coronavirus disease
- Genetic screening and study
- Assisted information technology
- Surgical approaches

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Infertility & Reproductive Medicine**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	December 28th, 2020
Publication Date	February 2021
