

Special Issue on High Risk Pregnancy

Call for Papers

High risk pregnancy is one of greater risk to the mother or her fetus than an uncomplicated pregnancy. Pregnancy places additional physical and emotional stress on a woman's body. Health problems that occur before a woman becomes pregnant or during pregnancy may also increase the likelihood for a high-risk pregnancy.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **High Risk Pregnancy**. Potential topics include, but are not limited to:

- Medical problems and infections in pregnancy
- Risk factors and prevention
- Obesity and pregnancy
- Advanced maternal age
- Adolescent pregnancy
- Cancer management
- Preeclampsia
- Miscarriage
- Hypertensive disease of pregnancy
- Gestational diabetes
- Ectopic pregnancy
- Preterm birth
- Multiple births
- Fetal disorders and birth defects
- Amniocentesis during pregnancy
- Lifestyle factors
- Pregnancy and COVID-19

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – High Risk Pregnancy**” should be chosen during your submission.

According to the following timetable:

Scientific Research
Open Access

Open Journal of Obstetrics
and Gynecology
ISSN Online: 2160-8806
