

Special Issue on

High-Risk Pregnancy and Maternal Health

Call for Papers

High-Risk Pregnancy and Maternal Health is an interdisciplinary field focused on the prevention, diagnosis and management of pregnancy-related complications affecting maternal and fetal health. It encompasses hypertensive disorders, gestational diabetes, maternal infections, preterm birth, fetal complications, prenatal care and obstetric interventions. The field aims to improve maternal and perinatal outcomes through early risk assessment, evidence-based clinical management, multidisciplinary care and advances in maternal-fetal medicine.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **High-Risk Pregnancy and Maternal Health**. Potential topics include, but are not limited to:

- Maternal-Fetal Medicine and High-Risk Obstetrics
