*Open Journal of Yangtze Oil and Gas* is a peer reviewed international journal dedicated to analyze the latest development on oil and gas, such as petroleum exploration, development, and application. The goal of this journal is to provide a platform for researchers and scientists to promote, share and discuss various issues related. This includes, but is not limited to:

- Drilling Engineering
- Geophysical Logging
- Oil Field Engineering
- Oil-Gas Field Development
- Petrochemistry
- Petroleum Geology
- Petroleum Machinery

We welcome submissions of both experimental and theoretical papers provided that they report interesting and important findings, reveal novel insights, or propose useful methodologies in these areas. Review articles addressing timely and important topics in the aforementioned areas are also published in OJOGas.
