

## Special Issue on General and Diagnostic Pathology

### Call for Papers

General and Diagnostic Pathology focuses on advancing the understanding of disease mechanisms alongside innovations in diagnostic practices that support accurate and timely clinical decision-making. It encompasses a broad spectrum of topics, including histopathological evaluation, cytological analysis, molecular and genetic diagnostics, and the integration of digital technologies such as artificial intelligence and whole slide imaging. Emphasis is placed on correlating morphological findings with molecular data to improve disease classification, prognostic assessment, and personalized treatment strategies. By bridging traditional microscopy with emerging computational and multi-omics approaches, this special issue aims to highlight cutting-edge research and practical methodologies that enhance diagnostic precision and contribute to improved patient outcomes across diverse medical conditions.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **General and Diagnostic Pathology**. Potential topics include, but are not limited to:

- Histopathology
- Cytopathology
- Surgical pathology
- Molecular diagnostics
- Immunohistochemistry
- Hematopathology
- Neuropathology
- Dermatopathology
- Gastrointestinal pathology
- Renal pathology
- Pulmonary pathology
- Forensic pathology
- Digital pathology
- Experimental pathology
- Diagnostic cytology
- Clinical pathology

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - General and Diagnostic Pathology**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	August 7th, 2026
Publication Date	October 2026

**Guest Editor:**
