Open Journal of Rheumatology and Autoimmune Diseases

ISSN: 2163-9914 (Print) ISSN: 2164-005X (Online)

<https://www.scirp.org/journal/ojra>

Open Journal of Rheumatology and Autoimmune Diseases is a peer reviewed international journal dedicated to the latest advancement of Rheumatology and Autoimmune Diseases. The goal of this journal is to keep a record of the state-of-the-art research and to promote study, research and improvement within its various specialties.

Editor-in-Chief

Prof. Remzi Cevik

Dicle University, Türkiye

Subject Coverage

The goal of OJRA is to keep a record of the state-of-the-art research and to promote study, research and improvement within its various specialties. The journal publishes original papers including but not limited to the following fields:

- Aetiology and pathogenesis
- Autoimmune diseases, such as Addison's disease, celiac disease - sprue (gluten-sensitive enteropathy), dermatomyositis, graves disease, hashimoto's thyroiditis, multiple sclerosis, myasthenia gravis, pernicious anemia, reactive arthritis, rheumatoid arthritis, sjogren syndrome, systemic lupus erythematosus, type I diabetes
- Autoimmune features of infections
- Complications, side effects of medications used to suppress the immune system
- Expectations or prognosis
- Incidence and risk factors
- Laboratory and radiological aspects
- New therapeutic strategies in the management of autoimmune diseases difficult to treat
- Rheumatism, such as rheumatic aortic stenosis, rheumatic fever, rheumatoid arthritis, rheumatoid lung disease, rheumatoid pneumoconiosis
- Signs and tests, including antinuclear antibody tests, autoantibody tests, rheumatoid factor (RF), CBC, C-reactive protein (CRP), Erythrocyte sedimentation rate (ESR)
- Specific conditions, such as antiphospholipid antibody syndrome, autoimmune hepatitis, autoimmune inner ear disease, autoimmune lymphoproliferative syndrome (ALPS), autoinflammatory diseases, familial mediterranean fever, Goodpasture syndrome, Lambert-Eaton myasthenic syndrome, antiphospholipid syndrome (APS), neuromyelitis optica, paraneoplastic syndromes, Stiff-Person syndrome
- The hotspot in all autoimmune diseases
- The increasing use of biologic drugs and new biologic drugs in evolution
- Treatment and Prophylaxis
- Unmet needs in Rheumatology practice
- Update on the diagnosis of anti-phospholipid syndrome
- Updates on the criteria of diagnosis of seronegative spondyloarthropathies and new management strategies
- Updates on the management of vasculitis

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the OJRA.

Notes for Intending Authors

All manuscripts submitted to OJRA must be previously unpublished and may not be considered for publication elsewhere at any time during OJRA's review period. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. Additionally, accepted ones will immediately appear online followed by printed in hard copy. For more details about the submissions, please access the website.

What is SCIRP?

Scientific Research Publishing (SCIRP) is an open access academic publisher. It currently publishes more than 200 peer-reviewed open access journals covering a broad spectrum of academic disciplines. Through its open access publishing model, SCIRP is committed to supporting the global research community and promoting the dissemination, exchange, and application of scholarly knowledge.

What is Open Access?

SCIRP ensures that all original research papers it publishes are offered free and continuing online accessibility as soon as they are published. In order to deliver open access journals, SCIRP charges authors to cover operational expenses and subscription fees only for the printed version. Open access publishing allows for unrestricted and worldwide access to the complete text of research papers, and is thus most advantageous to the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
