Volume 4 Number 4

December 2014

Comparisons of Image Quality and ADCs in Breath-Hold, Respiratory-Triggered and Free-Breathing DWI of Pancreas at 3-T

C. Ma, J. Wang, Y.-J. Li, C.-S. Pan, Y. Zhang, H. Wang, S.-Y. Chen, J.-P. Lu.....279

Findings of ¹⁸F-Fluorodeoxyglucose Positron-Emission Tomography in Methotrexate-Related Lymphoproliferative Disorder

A. K. Kono, K. Kitajima, H. Matsuoka, K. Otani, T. Itoh, K. Sugimura.....293

Ultrasonographic Characteristics of Diabetes Impacts in Kidneys' Morphology

M. A. Ali Omer, A. H. Eljack, M. E. M. Gar-alnabi, M. Z. Mahmoud, M. Elseid, G. A. Edam.....301

The Sensitivity of Computerized Tomography in Diagnosis of Brain Astrocytomas

E. Abd Elrahim, A. Elzaki, A. Hassan, A. M. Abd Elgyoum, H. Osman.....309

More Peripheral Visualization of Hepatic Arteries by Using Respiratory-Triggered 3D True Steady-State Free-Precession Projection Magnetic Resonance Angiographic Sequences with Time-Spatial Labeling Inversion Pulse

D. Tsuge, R. Kuwatsuru, T. Inoue, Y. Yamashiro, K. Suzuki, A. Shiraishi.....314

Evaluation of 3-D Printed Immobilisation Shells for Head and Neck IMRT

M. Fisher, C. Applegate, M. Ryalat, S. Laycock, M. Hulse, D. Emmens, D. Bell.....322

Potential Use of Ultrasonic Cavitation Threshold to Non-Invasively Differentiate Cystic Masses

B. E. O'Neill, E. Chang, N. Yu.....329
