Table of Contents

Volume 8 Number 1

January 2018

Local Scale Edaphic Surveys in and out of a *Pericopsis elata* (Harms) Meeuwen Natural Forest Stand in East Cameroon

G. K. Kome, A. A. Onana, M. Ngoucheme, F. O. Tabi.....1

Residual Effect of Biochar on Soil Properties and Yield of Maize (*Zea mays L.*) under Different Cropping Systems

Sara, Z. Shah, T. Shah.....16

Soil pH as a Phenotype Determinant in Humans: Proposing a Scientific Hypothesis

I. K. Barthakur.....36

Soil Organic Carbon Storage, N Stock and Base Cations of Shade Coffee, Khat and Sugarcane for Andisols in South Ethiopia

B. Lemma.....47

Root-Zone Soil Water Balance and Sunflower Yield under Deficit Irrigated in Zambia

E. Phiri, S. Zimba.....61

<http://www.scirp.org/journal/ojss>

Open Journal of Soil Science (OJSS) is an international journal dedicated to the latest advancement of soil science. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of soil science.

Subject Coverage

This journal invites original research and review papers that address the following issues in soil science. Topics of interest include, but are not limited to:

- Soil and Global Change
- Soil Biology and Biochemistry
- Soil Chemistry
- Soil Ecology
- Soil Environment
- Soil Fertility and Plant Nutrition
- Soil Geography
- Soil Improvement Studies
- Soil Microbiology
- Soil Physics
- Soil Remediation
- Soil Resources and Use
- Soil Science in Other Disciplines
- Soil Survey and Evaluation
- Soil Taxonomy
- Soil Tillage

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the **OJSS**.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
