

**Special Issue on**  
**Sustainable Land Management: intermediate results and future perspectives**  
**from Kilimanjaro, Tanzania**

special issue will cover papers presented at a workshop for the Project on Reducing Land Degradation on the Highlands of Kilimanjaro Region. The objective of the workshop was to assess issues/problems and opportunities for the Kilimanjaro Region to adopt a more programmatic approach to Sustainable Land Management via mainstreaming into national development processes.

Potential topics include, but are not limited to:

- Challenges to adopt a programmatic approach to Sustainable Land Management,
- Opportunities to adopt a programmatic approach to Sustainable Land Management
- Land degradation
- soil health and surveillance
- carbon measurements and hydrological monitoring
- Capacity building and extension services
- Participatory Capacity Assessment
- Questionnaire surveys
- applicability of the energy-switch principle and carbon finance
- 

Papers should be sent to [ojss@scirp.org](mailto:ojss@scirp.org) on or before July 30th 2014.
