

Special Issue on Urological Diseases: Diagnosis and Treatment

Call for Papers

Urological Diseases: Diagnosis and Treatment addresses advances in the identification, clinical assessment, and management of disorders affecting the urinary system and male reproductive organs. Relevant topics include diagnostic imaging, laboratory testing, endoscopic evaluation, prostate health, kidney and bladder conditions, urinary stone disease, urinary tract obstruction, sexual and reproductive health, and urological malignancies. Research in this area contributes to the refinement of diagnostic criteria, the evaluation of therapeutic outcomes, and the development of individualized treatment strategies tailored to disease characteristics and patient needs. Additional areas of interest include minimally invasive interventions, surgical innovation, pharmacological therapies, postoperative recovery, and the prevention of disease recurrence. Through clinical studies and evidence-based practice, this field aims to strengthen diagnostic precision, improve treatment effectiveness, reduce complications, and enhance long-term health outcomes and quality of life for patients with urological conditions.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Urological Diseases: Diagnosis and Treatment**. Potential topics include, but are not limited to:

- Urological oncology
- Prostate diseases and treatment
- Kidney diseases and disorders
- Bladder diseases and dysfunction
- Urinary tract infections
- Urolithiasis and stone management
- Male infertility and reproductive health
- Andrology and sexual medicine
- Urinary incontinence and pelvic floor disorders
- Neuro-urology
- Pediatric urology
- Reconstructive urology
- Minimally invasive urological surgery
- Urological imaging and diagnostics
- Urethral and ureteral disorders
- Renal transplantation and post-transplant care

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Urological Diseases: Diagnosis and Treatment**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	February 16th, 2027
Publication Date	April 2027
