TABLE OF CONTENTS

Volume 2 Number 1

February 2011

Wind-Induced Response Characteristics of a Tall Building from GPS and Accelerometer Measurements

C. L. Kuang, K. C. S. Kwok, P. A. Hitchcock, X. L. Ding.....1

Limited Bandwidths and Correlation Ambiguities: Do They Co-Exist in Galileo Receivers

E. S. Lohan.....14

Point Selection for Triangular 2-D Mesh Design Using Adaptive Forward Tracking Algorithm

N. Borjian, R. Amirfattahi, S. Sadri.....22

Tectonic-Geophysical Mapping of Israel and the Eastern Mediterranean: Implications for Hydrocarbon Prospecting

L. Eppelbaum, Y. Katz.....36

Application of Improved Analysis of Variance to Ionospheric TEC Short-Term Forecast

Y. Gong, Y. M. Dang.....55

Information Method for Synthesis of Optimal Data Subsystems Designated for Positioning, Location and Remote Sensing Systems

H. H. Asadov, K. K. Ismaylov.....61

The figure on the front cover is from the article published in *Positioning*, 2011, Vol. 2, No. 1, pp. 36-54 by Lev Eppelbaum, Youri Katz.

POSTIONING

A Journal Published by Scientific Research Publishing, USA

www.scirp.org/journal/pos

POSTIONING is an international journal dedicated to the latest advancement of navigation and positioning. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of navigation and positioning.

Editor-in-Chief

POSTIONING is an international journal dedicated to the latest advancement of positioning. The goal of this journal is to provide a platform for engineers and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of engineering. All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers including but not limited to the following fields:

- Air Navigation/Positioning
- All-weather Navigation/Positioning
- Approach Navigation/Positioning
- Arc Navigation/Positioning
- Astronomical Navigation/Positioning
- Blind Navigation/Positioning
- Celestial Navigation/Positioning
- Constant Navigation/Positioning
- Doppler Navigation/Positioning
- Electronic Navigation/Positioning
- Fixed Lead Navigation/Positioning
- Geodetic System Geographic Information System
- Global Positioning System
- Inertial Navigation/Positioning
- Interplanetary Navigation/Positioning
- Land Navigation/Positioning
- Long-distance Navigation/Positioning
- Omni Bearing - Distance Navigation/Positioning
- Orbital Navigation/Positioning
- Radar Navigation/Positioning
- Radio Navigation/Positioning
- Satellite Navigation/Positioning
- Ship Navigation/Positioning
- Short-range Navigation/Positioning
- Sonar Navigation/Positioning
- Space Navigation/Positioning

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

★ Notes for Intending Authors

Submitted papers should not be previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. For more details, please access the website.
