

Special Issue on Psychology & Behavioral Sciences

Call for Papers

Psychology & Behavioral Sciences explores human and animal behavior, cognition, emotion and mental processes. It integrates experimental, clinical, social, and developmental approaches to understand how biological, psychological, and environmental factors influence behavior. The field examines learning, memory, perception, personality, mental health and decision-making, while also applying research to improve well-being, education, organizational performance and social functioning.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Psychology & Behavioral Sciences**. Potential topics include, but are not limited to:

- Applied behavior analysis
- Cognitive psychology
- Behavioral psychology
- Social psychology
- Health psychology
- Developmental psychology
- Clinical and health psychology
- Cognitive behavior therapy
- Educational psychology
- Counseling psychology
- Emotion, behavior and psychology
- Personality and behavior
- Attachment and positive psychology
- Motivation and behavior
- Interpersonal behaviors
- Child and adolescent psychology
- Industrial-organizational psychology
- Cross-cultural & global psychology
- Quantitative psychology

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed

to be specified and the research field “**Special Issue – Psychology & Behavioral Sciences**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	June 1st, 2026
Publication Date	August 2026
