

Special Issue on Surgical Techniques

Call for Papers

Surgery is a technology consisting of a physical intervention on tissues and muscle, which aims to investigate and/or treat a pathological condition such as disease or injury, to help improve bodily function or appearance or to repair unwanted ruptured areas. This special issue (Surgical Techniques) focuses on the methodology of both classical surgery and modern surgery.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Surgical Techniques**. Potential topics include, but are not limited to:

- Anastomosis
- Continent ileostomy
- Enterostomy
- Flap surgery
- Internal fixation
- Laser surgery
- Open reduction
- Skin graft
- Tissue expansion
- Tracheostomy
- Urinary diversion

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Surgical Techniques**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	June 30th, 2016
Publication Date	August 2016
