

## Special Issue on Minimally Invasive Surgeries

### Call for Papers

**Minimally Invasive Surgeries** should be defined as one that is safe and is associated with a lower postoperative patient morbidity compared with a conventional approach for the same operation. Minimally invasive surgery is associated with less pain, a shorter hospital stay and fewer complications.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Minimally Invasive Surgeries**. Potential topics include, but are not limited to:

- Laparoscopic approaches
- Treatment and reconstruction
- Clinical practice
- Invasive procedures
- Medical devices
- Laser Surgery
- Inguinal hernia repair
- Laparoscopic cholecystectomy
- Minimally invasive heart surgery
- Robot-assisted surgery
- Microsurgery

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Minimally Invasive Surgeries**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	October 22nd, 2020
Publication Date	December 2020
