

Special Issue on Surgical Oncology

Call for Papers

"Surgical Oncology" is an academic topic that focuses on the surgical management of cancer. It involves the study and practice of surgical techniques and procedures for the diagnosis, treatment, and palliation of cancerous tumors. The goal of surgical oncology is to achieve complete tumor removal whenever possible, to stage and accurately determine the extent of cancer spread, and to help control or cure cancer through surgical intervention.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Surgical Oncology**. Potential topics include, but are not limited to:

- Diagnostic surgery
- Tumor removal/debulking
- Reconstruction surgery
- Palliative surgery
- Surgical pathology
- Minimally invasive surgery
- Supportive surgery
- Preventive surgery
- Perioperative management
- Pediatric surgical oncology
- Robotic surgery
- Laser surgery
- Rehabilitation
- Outcomes and quality improvement
- Current trends and new techniques

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the "**Special Issue**" under your manuscript title is supposed to be specified and the research field "**Special Issue – Surgical Oncology**" should be chosen during your submission.

According to the following timetable:

Submission Deadline	October 29th, 2023
Publication Date	December 2023

Scientific Research
Open Access

Surgical Science
ISSN Online: 2157-9415
