

## Special Issue on Surgical Oncology

### Call for Papers

Surgical Oncology is a medical specialty and research field focused on the surgical management of cancer. It studies tumor biology, diagnostic evaluation, operative techniques and perioperative care to achieve optimal tumor removal and patient outcomes. The field also integrates multidisciplinary treatment approaches, minimally invasive and robotic surgery and advances in precision medicine to improve survival, quality of life, and long-term cancer control.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Surgical Oncology**. Potential topics include, but are not limited to:

- Tumor biology and surgical pathology
- Minimally invasive and robotic oncology surgery
- Surgical immunotherapy
- Reconstructive & functional oncology
- Image-guided & navigational surgery
- Cancer prevention & risk-reducing surgery
- Surgical management of metastases
- Gastrointestinal surgical oncology
- Breast surgical oncology
- Head and neck surgical oncology
- Thoracic surgical oncology
- Hepatobiliary and pancreatic oncology surgery
- Perioperative care and enhanced recovery
- Palliative & supportive surgery
- Oncologic reconstruction and rehabilitation
- Multidisciplinary and personalized cancer surgery
- Current trends and new techniques

**Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).**

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Surgical Oncology**” should be chosen during your submission.
