

Special Issue on Applied Econometrics, Statistics and Quantitative Methods

Call for Papers

Applied Econometrics, Statistics and Quantitative Methods is an interdisciplinary field focused on applying statistical techniques, econometric models and quantitative approaches to analyze data and investigate complex economic and social phenomena. It encompasses statistical inference, regression analysis, time-series modeling, causal inference, forecasting and computational methods. The field supports evidence-based research, policy evaluation and decision-making across economics, finance, business, public policy and other applied disciplines.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Applied Econometrics, Statistics and Quantitative Methods**. Potential topics include, but are not limited to

- Applied Econometric Modeling
- Macroeconometric Modeling and Policy Analysis
- Microeconometrics
- Regression Analysis and Statistical Inference
- Time-Series Analysis and Forecasting
- Panel Data Analysis
- Stochastic Models
- Time Series Analysis
- General Equilibrium Analysis
- Causal Inference and Treatment Effects
- Bayesian Statistics and Modeling
- Multivariate Statistical Analysis
- Nonparametric and Semiparametric Methods
- Computational Statistics and Statistical Learning
- Quantitative Economic Analysis
- Financial Econometrics and Risk Analysis
- Experimental and Quasi-Experimental Methods
- Optimization and Quantitative Decision Methods
- Statistical Sampling and Survey Methodology
- Spatial Econometrics and Geographic Data Analysis
- Machine Learning and Predictive Analytics
- Quantitative Policy Evaluation and Impact Assessment
- Simulation Methods and Monte Carlo Analysis

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Applied Econometrics, Statistics and Quantitative Methods**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	January 25th, 2027
Publication Date	March 2027

For publishing inquiries, please feel free to contact the Editorial Assistant at submission.entrance1@scirp.org
