

Table of Contents

Volume 4 Number 2

May 2014

Theoretical Study of the Interplay of Superconductivity and Magnetism in FeAs Based Superconductors M. A. Afrassa, P. Singh.....	53
Polariton Evaporation: The Blackbody Radiation Nature of the Low-Frequency Radiation Emitted by Radiative Polaritons to the Surrounding Space Y. Schwab, H. S. Mann, B. N. Lang, G. Scarel.....	58
Transport Properties of Superfluid Dipolar Fermi Gas at Low Temperatures M. K. Dehkordi.....	66
Entanglement of E8E8 Exceptional Lie Symmetry Group Dark Energy, Einstein's Maximal Total Energy and the Hartle-Hawking No Boundary Proposal as the Explanation for Dark Energy M. S. El Naschie.....	74
On the Validity of Janak's Theorem and Ground State Energies of Ensembles of Interacting Quantum <i>N</i>-Particle Systems A. Gonis.....	78
Diffusion Coefficient in Silicon Solar Cell with Applied Magnetic Field and under Frequency: Electric Equivalent Circuits A. Diao, N. Thiam, M. Zoungrana, G. Sahin, M. Ndiaye, G. Sissoko.....	84
