

Special Issue on Engineering Technology and Interdisciplinary Fields

Call for Papers

Engineering Technology and Interdisciplinary Fields is a boundary-breaking, application-oriented research paradigm that systematically integrates core engineering technical principles with methodologies from natural sciences, social sciences, digital intelligence and humanities, to address complex, real-world global challenges that cannot be resolved by any single traditional engineering discipline. Rooted in systematic experimental investigation, theoretical innovation and technological translation, this domain transcends the silos of conventional engineering branches, establishing bidirectional knowledge fusion pathways between engineering practice and frontier fields such as life sciences, information technology, ecological environment and socio-economic governance. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Engineering Technology and Interdisciplinary Fields**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **Engineering Technology and Interdisciplinary Fields**. In this special issue, potential topics include, but are not limited to:

- Advanced Manufacturing & Industrial Interdisciplinary Systems
- Bio-Engineering & Medical Interdisciplinary Technology
- Sustainable Energy & Environmental Interdisciplinary Engineering
- Information & Intelligence-Enabled Interdisciplinary Engineering
- Nano & Advanced Materials Interdisciplinary Technology
- Urban & Societal Interdisciplinary Engineering Governance
- Aerospace & Extreme Environment Interdisciplinary Engineering

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Engineering Technology and Interdisciplinary Fields**” should be selected during your submission.

Special Issue timetable:

Scientific Research
Open Access

World Journal of
Engineering and Technology
ISSN Online:2331-4249

Submission Deadline	November 20th 2026
Publication Date	January 2027
