

Special Issue on Autism Spectrum Disorder

Call for Papers

Autism spectrum disorder (ASD) is a neurologically-based developmental disability that affects social interaction, communication, interests and behaviour. It includes autistic disorder, Asperger syndrome, pervasive developmental disorder-not otherwise specified (PDD-NOS), Rett's disorder, and childhood disintegrative disorder. The signs of ASD typically start to develop in childhood.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Autism Spectrum Disorder**. Potential topics include, but are not limited to:

- Autistic disorder
- Childhood disintegrative disorder
- Asperger's disorder
- Autism symptoms
- ASD and vaccines
- ASD-related symptoms
- Autistic savantism

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Autism Spectrum Disorder**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	May 18th, 2016
Publication Date	August 2016
