

Special Issue on Clinical Neuroscience

Call for Papers

Clinical neuroscience is a branch of neuroscience that studies the fundamental mechanisms that underlie diseases and disorders of the brain and central nervous system. This issue aims to provide a platform for scholars, clinical practitioners and scientists to share their findings in this field.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Clinical Neuroscience**. Potential topics include, but are not limited to:

- Neurological disorders
- Addictive disorders
- Treatments for pain
- Clinical psychopharmacology
- Clinical neurology
- Emerging technologies

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Clinical Neuroscience**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	August 20th, 2018
Publication Date	October 2018
