Call for Papers

<http://www.scirp.org/journal/wsn>

ISSN 1945-3078 (Print) ISSN 1945-3086 (Online)

WSN is an international refereed journal dedicated to the latest advancement of wireless sensor network and applications. The goal of this journal is to keep a record of the state-of-the-art research and promote the research work in these areas.

Editor-in-Chief

Dr. Kosai Raoof, GIPSA LAB, University of Joseph Fourier, Grenoble, France

Subject Coverage

This journal invites original research and review papers that address the following issues in wireless sensor networks. Topics of interest are (but not limited to):

- Network Architecture and Protocols
- Self-Organization and Synchronization
- Quality of Service
- Data Processing, Storage and Management
- Network Planning, Provisioning and Deployment
- Integration with Other Systems
- Software Platforms and Development Tools
- Routing and Data Dissemination
- Energy Conservation and Management
- Security and Privacy
- Developments and Applications
- Network Simulation and Platforms

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the WSN.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. Authors are responsible for having their papers checked for style and grammar prior to submission to WSN. Papers may be rejected if the language is not satisfactory. For more details about the submissions, please access the website.
